The author regrets missing the following correction to a sentence under the ‘Results’ section:

The sentence “Fig. 1 summarises the results of the sensitivity analysis in which behavioural problems are compared between children living closer (n = 503) or further than 500 m (n = 1429) away from the nearest urban green space.” needs correction for ‘n’ values.

The “n = 503” in the sentence should be “n = 1429”.

The “n = 1429” in the sentence should be “n = 503”.

The authors would like to apologise for any inconvenience caused.
